

TITAN SMART

Description

Oritek Laboratory Scales are precision-engineered to meet the exacting demands of scientific, pharmaceutical, and research environments. Designed for accuracy, reliability, and ease of use, these scales offer unparalleled precision for critical measurements in laboratories, educational institutions, and industrial research settings. With advanced features and robust construction, they deliver consistent results for the most sensitive weighing applications.

Specification

MODEL	CAPACITY	ACCURACY	PAN SIZE	FRAME MATERIAL
OTJS-202	200gm	0.01gm	110mm DIA	ABS
OTJS-302	300gm	0.01gm	110mm DIA	ABS
OTJS-602	600gm	0.01gm	110mm DIA	ABS
OTJS-1002	1000gm	0.01gm	110mm DIA	ABS

Feature

- 1/60000 display resolution
- ABS plastic body
- Large LED (0.56) display with a option of rear display
- Water resistant keypad
- Counting mode, Wt accumulation
- 220V AC /built-in 6V rechargeable battery 40hrs backup
- 4 point overload protection / overload alarm
- Option : RS-232 interface for computer interfacing
