

Hanging Scale

Description

The Hanging Series is a lightweight, battery powered hanging / crane scale for simple suspension weighing. Capacities are available from 10kg to 200kg. The scale has two 0.56" LED displays to show weight, one for the user and the other for the customer on the back side. The soft touch keypad buttons are ideally sized, color coded, and bear symbolic tags for easy recalling scale functions. The displays are large easy to read LED type displays for easy view in different lighting conditions. It is a highly portable scale ideal for meat, food and cylinder industry. Working it suitable for wide range of application. The scale is loaded with features like, automatic zero tracking, overload alarm, low battery protection, Weight Hold, Accumulation, Pre Tare, Sleep Mode, Check Weighing, Brightness Increasing, Dummy Zero. A bright LED display means it is clearly visible from long distances.

Specification
