

Crane Scale

Description

The Oritek Crane Scale provides the most efficient, simple solution to high capacity suspension weighing. The robust construction and capacity choices of 1 tonne to 50 tonnes mean it is suitable for a wide variety of heavy duty industrial and construction applications. Oritek Series is a heavy duty industry specialized scale. Having a sturdy mechanical structure, High tension hook and shackle. Some of the features include overload alarm, push button tare facility, weight accumulation function. It is one of the best in class scale works like a crane. The scale has a large bright red LED clearly visible from long distances. We can supply larger capacities on request – please get in touch if you require a larger capacity crane scale. An infra red remote control comes as standard and enables easy operation at a safe distance from the crane scale. Hold, tare and zero features come as standard and there is an easy to use digital calibration routine to ensure weighing accuracy.

Specification

CAPACITY (kg)	ACCURACY	DISPLAY	ACCESORIES
500kg	200gm	1.25" Bright RED LED Display	Heat Shield* Spare battery, Carrying Trolley*
1000kg	500gm		
2000kg	1kg		
3000kg	1kg		
5000kg	2kg		
10000kg	5kg		

Feature

1. Large LED display for excellent visibility
2. Push Button Tare Facility
3. Overload alarm and indication
4. High-tension hook and shackle for safety max load 200%
5. Weight accumulation function
6. Remote Control calibration, Wireless option available
7. Infrared remote controller. Distance 20m
8. Models with high temperature shield available
9. Weight Hold, Gross / Net, Kg conversion functions
