

NANO

Description

The MS series weighing scale is an accurate, MS (Mild Steel Powder Coating) Upper body and rust proof Shock proof body , loaded with time saving features and ease of customer Use . The scale is equipped with a 0.56 LED front & 0.56" rear display to show weight easily visible in any lighting conditions for the user. There are different models in this series, with capacities ranging from 3kg up to 20kg and with least count from 0.2g up to 2g. The MS Counter scale is simple to use for industrial purpose, and modes suitable for many different applications. Sealed keypad, making the MS Counter scale is ideal for measuring. Level indicator and adjustable feet ensure proper balance setup. Lightweight design simplifies transport and portability.
